Applicant(s)

WANG, CHENG CHUNG

Examiner

James M. Hewitt

Art Unit

3679

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Claims 1 and 9-10 are allowable. The restriction requirement, as set forth in the Office action mailed on 4/5/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4, 15-16 and 18 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Drawings

The replacement drawing sheets were received on 7/3/07 and are acceptable.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 21, 23 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Chaffee (US 5,267,363).

With respect to claim 8 and with reference to Attachment X, Chaffee discloses an inflatable product; including: a first chamber (mattress) comprising a chamber wall; a pack (assembly 12) having an interior region, an air intake communicating the interior region to the outside of the first chamber and a first air outlet connected communicating the interior region to the inside of the first chamber, wherein the pack is built in the chamber wall and extends into an interior of the first chamber; a first valve (12) for opening and closing the first air outlet, wherein the first valve is connected to the pack; and a motor (25) connected to a fan (21) for rotating the fan to pump air, wherein, on activation of the fan and motor to inflate the first chamber, air is pumped from outside of the first chamber through the air intake into the interior region of the pack, then through the first valve and first air outlet into the first chamber.

With respect to claim 21, wherein the first valve is a two-way valve.

With respect to claim 23, wherein the first valve is arranged to allow manual opening and closing of the first air outlet.

With respect to claim 26, wherein the pack comprises a pack wall exposed to the outside of the first chamber, and the air intake communicates the outside of the first chamber to the interior region of the pack through the pack wall.

Allowable Subject Matter

Claims 1-7, 18, 20 and 24-25 are allowed.

Claims 9-16, 22 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments, see pages 11-12, filed 7/3/07, with respect to the rejections of claims 1 and 5 as being unpatentable over Citation C1 have been fully considered and are persuasive. These rejections have been withdrawn.

Applicant's arguments, see pages 10-11, filed 7/3/07, with respect to the rejection of claim 8 as being unpatentable over Chaffee have been fully considered but are not persuasive.

Applicant argues "There is no teaching or suggestion of a pack having an interior region, an air intake communicating the interior region to the outside of a first chamber and a first air outlet communicating the interior region to the inside of the first chamber, wherein the pack is built in a chamber wall and extends into an interior of the first

chamber, as recited in claim 8." Examiner disagrees. Refer to the above rejection of claim 8.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Hewitt whose telephone number is 571-272-7084.
